Date: October 20, 2009

Subject: **H1N1 Preparedness**

Please know that the Coventry Public Schools H1N1 Planning Committee has met and is working with the Eastern Highland Health District (EHHD) regarding notifications and upcoming H1N1 vaccination clinics. At the recommendation of EHHD, Coventry is looking at having individual school-based clinics. These events would be held afterschool and in the schools' cafeterias. Currently we are looking at Thursday afternoons in November/early December. Once EHHD notifies Coventry that the vaccine is available we will firm up dates and times.

Please see the attached notice regarding a clinic to be held soon in Mansfield.

Thank you, as always, for continuing to communicate appropriate hygiene and hand washing strategies to our students and staff.
