

**NEW CONSTRUCTION**

New Construction Planning and Charge of Building needs and Projection Committees

It shall be the responsibility of the Building Needs and Projection Committee to study the needs for housing of the school population and to make appropriate recommendations to the Board.

The Committee shall focus its efforts toward a review of the major factors affecting building needs including, but not limited to the following:

- a. the size of the student population, including studying the past and estimating future enrollments
- b. the impact of change in curricula
- c. the need to protect the physical condition of our buildings

Planning

Every two years, in odd-numbered years, the Board shall review the building needs of the public schools under its jurisdiction.

A Building Needs and Projections Committee shall be organized by the Board within thirty (30) calendar days following elections.
