From the CHS website:

What if students can't make it to E-Portfolio Open House?

Students will have to schedule a presentation to a committee of teachers outside of class time, and AFTER THE OPEN HOUSE DATE. If a student is not available to come that evening, they schedule a presentation to 5 staff members in a classroom in the weeks following the event. It is a great experience. They get a chance to talk about their work at Coventry High School, and speak to how they feel they achieved the mission personally. It also gives public speaking practice in a supported, intimate setting. It's difficult to have enough staff available to offer this valuable experience to every student, which explains the "science fair" style open house event.
