

WATCH YOUR STEP!!!

To avoid trips, slips and falls:

- Wipe your feet when coming in from the rain or snow
- Wear proper footwear outside during inclement weather
- Avoid walking on wet floors – walk carefully if you must
- Respect waxed floors – be aware
- Pick up anything you see on the floor
- Report all spills

-  Keep cords away from pathways
- Watch out for uneven floors and changes in floor level
- As you walk, check your path for anything sticking out – drawers, supplies, trash cans, brooms, mops
- Keep your hands at your sides not in your pockets for better balance
